SUPPLEMENTARY QUESTIONS – These questions and the patient declaration are optional and your answers will not affect your entitlement to register or receive services from your GP.

PATIENT DECLARATION for all patients who are not ordinarily resident in the UK

Anybody in England can register with a GP practice and receive free medical care from that practice.

However, if you are not 'ordinarily resident' in the UK you may have to pay for NHS treatment outside of the GP practice. Being ordinarily resident broadly means living lawfully in the UK on a properly settled basis for the time being. In most cases, nationals of countries outside the European Economic Area must also have the status of 'indefinite leave to remain' in the UK.

Some services, such as diagnostic tests of suspected infectious diseases and any treatment of those diseases are free of charge to all people, while some groups who are not ordinarily resident here are exempt from all treatment charges.

More information on ordinary residence, exemptions and paying for NHS services can be found in the Visitor and Migrant patient leaflet, available from your GP practice.

You may be asked to provide proof of entitlement in order to receive free NHS treatment outside of the GP practice, otherwise you may be charged for your treatment. Even if you have to pay for a service, you will always be provided with any immediately necessary or urgent treatment, regardless of advance payment.

The information you give on this form will be used to assist in identifying your chargeable status, and may be shared, including with NHS secondary care organisations (e.g. hospitals) and NHS Digital, for the purposes of validation, invoicing and cost recovery. You may be contacted on behalf of the NHS to confirm any details you have provided.

Please tick one of the following boxes:

- a) ☐ I understand that I may need to pay for NHS treatment outside of the GP practice
- b) ☐ I understand I have a valid exemption from paying for NHS treatment outside of the GP practice. This includes for example, an EHIC, or payment of the Immigration Health Charge ("the Surcharge"), when accompanied by a valid visa. I can provide documents to support this when requested
- c) ☐ I do not know my chargeable status

I declare that the information I give on this form is correct and complete. I understand that if it is not correct, appropriate action may be taken against me.

A parent/guardian should complete the form on behalf of a child under 16.

DATA SHARING OPTIONS - The General Data Protection Regulations 2018

The General Data Protection Regulations 2018 (GDPR) came into force on 25th May 2018.

Summary Care Record

The regulations require that we gain patient consent regarding how we use your data. Specifically, whether you consent to having a Summary Care Record.

The Summary Care Record is a basic shared record across health care organisations.

It contains patient's medication, allergies and sensitivities and it may include enhanced information, for example for patients who are at the end of their life and the hospital, or a pharmacy may need urgent information about medications.

You have the right to opt out of the Summary Care Record.

Sharing In and Sharing Out – Enhanced Data Sharing Model

Your patient record includes medical history, details of your medication and any allergies/sensitivities you may have. You can now choose whether to share these full medical details with other health provider units eg. District Nurses, Health Visitors, Out of Hours Services.

You have 2 choices which give you control of how your record is shared. You can change these choices at any time by completing the consent form attached.

Sharing OUT

Information recorded at this Practice can be shared with other health care providers.

Sharing IN

You decide whether our Practice can see information in your record that has been entered by other services who are providing care for you or who may provide care for you in the future.

NATIONAL DATA OPT-OUT

The national data opt out is a service that allows patients to opt out of their confidential patient information being used for research and planning.

The national data opt out was introduced on 25 May 2018, enabling patients to opt out from the use of their data for research or planning purposes, in line with recommendations of the National Data Guardian in her Review of data security consent and opt outs.

Patients can view or change their national data opt out choice at any time by using the online service at www.nhs.uk/your-nhs-data-matters or by clicking on 'Your Health' in the NHS App, and selecting "Choose if data from your health records is shared for research and planning".

GP ONLINE SERVICES

You can now book appointments, order repeat prescriptions, and even access your GP records online. It's quick, easy and your information is secure. Register for online services at your GP surgery by speaking to a Receptionist or to find out more visit nhs.uk/GPonlineservices.
